Professional Summary

Analytical and detail-oriented Computer Science Engineering graduate with hands-on experience in SQL, Python, Power BI, and Excel for data analysis and business intelligence. Skilled in data cleaning, exploratory data analysis (EDA), data visualization, dashboard development, and KPI reporting using Pandas, NumPy, Matplotlib, Power Query, and DAX. Experienced in transforming raw data into actionable business insights through academic and virtual projects. Seeking to contribute analytical and problem-solving skills to support data-driven decision-making and business growth.

Technical Skills

Data Analysis – Excel: Data Cleaning and Validation | Excel Formulas (VLOOKUP, HLOOKUP, IF, INDEX-MATCH) | Pivot Tables and Pivot Charts | Dashboard Design | Report Building

Data Visualization – Power BI: Dashboards | Data Modeling | DAX Functions | Advanced Visualizations | Power Query
Programming – Python

Machine Learning & AI Soft Skills: Effective Communication | Attention to Detail | Team Collaboration | Problem Solving

Tools & Platforms: Anaconda | MySQL Workbench | Microsoft Excel | Power BI Desktop | Visual Studio Code | Github | Git

Database Management – MySQL: DDL, DML, DQL | Joins | Views | Group Functions | Window Functions | Stored Procedures | Subqueries | Indexing | Query Optimization

Projects

Financial Sales Performance and Customer Analysis

- Developed **interactive Power BI dashboards** to support **data-driven business decisions**.
- Performed **data cleaning, transformation, and modeling** using **Power Query** and **star schema**.
- Created **DAX measures and KPIs**, including MoM, YoY, and cumulative calculations.
- Built **interactive visualizations** using slicers, filters, drill-throughs, and conditional formatting.
- Optimized **Power BI reports** for performance, accuracy, and usability.
- **Tools Used:** Power BI Desktop, Microsoft Excel

HR Analytics Dashboard | Python, SQL, Power BI, Excel, Pandas, Matplotlib

- Analyzed employee data to identify attrition trends, department-wise performance, and workforce distribution.
- Performed **data cleaning, preprocessing**, and exploratory data analysis (**EDA**) using Python, **Pandas**, and **SQL**.
- Developed SQL queries using **JOINS, aggregations, filtering, GROUP BY**, and **subqueries** for HR reporting and workforce analysis.
- Generated business insights through data visualization to support employee retention strategies and workforce planning.

COVID-19 Data Analysis & Visualization | Python, Pandas, Matplotlib, Tableau, Jupyter Notebook

- Cleaned **50,000+ records** and processed global COVID-19 dataset (**200K+ records**) from WHO — handled **nulls, duplicates**, and format inconsistencies.
- Built Tableau story dashboard tracking infection **rates, recovery trends, and vaccination progress across 50+ countries**.
- Applied time-series analysis to forecast 30-day case trends using moving averages and trend decomposition.

Certifications

- Data Analyst intern – Besant Technologies, Chennai | March 2026 – July 2026
- Deloitte Data Analytics Virtual Internship – Deloitte (Forage)
- Data Visualization: Empowering Business with Effective Insights – Tata (Forage)
- Python for Data Analysis and Visualization – Edureka

Education

B.E Computer Science and Engineering

S.A Engineering College, Chennai | CGPA: 8.01 | 2022 – 2026

HSC – PACM Higher Secondary School | 84% | 2021-2022

SSLC – PACM Higher Secondary School | 76% | 2019-2020
